BC-51 NET PROFIT MONTHLY ALLOWABLE COSTS

PURPOSE

The Net Profit Monthly Allowable Costs (BC-51) is used to report to the Ministry the costs incurred on an approved project under the Net Profit Royalty Program. Allowed capital and operating costs are to be reported monthly and must be in accordance with the Net Profit Allowable Cost Order of the Administrator 2008-02. Reported costs should be only those costs which have been incurred inside the project ring fence. Costs must be summed by Producer and reported as a single line item for each Producer each month. The Ministry will apply a cost uplift factor of 1% for capital costs and 10% for operating costs. Total costs will be used to maintain allowable cost balances and in the calculation of project tier payout balances for each producer. Costs should be reported according to the month that the costs were incurred. The BC-51 must be filed through an on-line entry screen that can be found at the Ministry's website as follows:

www.sbr.gov.bc.ca/business/Natural_Resources/Oil_and_gas_royalties/forms.htm

RESPONSIBILITIES AND TIMING

A BC-51 must be filed with the Mineral, Oil and Gas Revenue Branch by the last day of the second month following the month in which the costs were incurred. Responsibility for submitting the BC-51 is the operator of projects within the Net Profit project ring fence.

Facility Operator:

The operator of a facility within a Net Profit project ring fence is responsible for the submission of the BC-51 for all royalty or tax paying partners in the approved project:

A BC-51 should be submitted for Operating costs incurred in months after and including the project application month.

The facility operator should provide a copy of the BC-51 to affected net profit project partners so that they are aware of the costs that have been reported on their behalf.
